Super Bowl Sunday
Will Punxsutawney Phil see his shadow, and who will win Super Bowl 54? We’ll get the answers to both questions on Sunday, Feb. 2. After the early morning Groundhog Day festivities in Pennsylvania, the NFL’s biggest game of the year will be played later that night in Miami Gardens, Fla.

**10 Ways Chimpanzees and Humans Are the Same!**

Chimpanzees laugh when tickled. Like us, the first five years of a chimp’s life are spent playing, socializing and developing a strong infant-mother bond. Though the human brain is larger, it is structurally identical to a chimpanzee’s. This means that chimpanzees are capable of reasoned thought, abstraction and generalization. They can even recognize themselves in a mirror—most other animals cannot! A chimp’s body is very similar to a human’s. We have the same bones, muscles, nervous system and the same number of fingers and toes. Chimpanzees see and experience the world much as we do. Their sense of sight, smell, hearing and touch are very similar to our own. As children, we are taught to share. Did you know that chimpanzees share their food and tools? Like humans, chimpanzees use body language to communicate. They kiss, hug, pat each other on the back, hold hands and shake their fists. Chimpanzees not only communicate like humans, they also demonstrate a range of emotions including joy, sadness, fear and even empathy.
Jacqueline’s Corn Casserole

If you want the best Corn Casserole try my recipe.

Pre-Heat oven to 350 Degrees. This recipe makes a regular size cake pan. Use Glass if you have it.

Melt 2 sticks of butter in microwave. add 2 ½ Tablespoons of sugar, pour in sugar stir until dissolved. (set aside)

Ingredients

In a separate small bowl, beat 4 eggs

In a large bowl add the following:
2 cans of cream corn
2 cans of regular corn (drain)
16 oz of sour cream
Add egg mixture
Add your butter and sugar mixture (Stir Mixture well) then add Jiffy Corn mix last.

2 small regular boxes of Jiffy Corn mix

With a fork stir very well everything together.

Large bag of shredded mild cheddar cheese. (Cheese is added on top later)

Lightly butter the bottom and sides of a Glass 9x12 pan. Pour mixture and even out

Bake for 1 hour and 15 minutes, test after 1 hour. important.

Do not overcook. Test with a toothpick. Take out of oven and pour your cheese on top spread out. I use the whole bag. Put back and bake for about 5 minutes just until it melts.

Enjoy!!
